

X-illant™

U P.V.C. Column Pipes

FITTING INSTRUCTIONS

Fit male thread of C.I. adaptor with female threads of submersible pump using chain wrench.

Fit male square threads of X-illant column pipe with female thread of pump guard / adaptor.

Don't use oil on threads of X-illant column pipes and always clean the thread of pipes with water before use and check the proper fitment of rubber sealing element.

Always hold the coupler of pipe by hand or wrench during fitting of pipe so that coupler does not get turned.

Always tight the metal clamp at marked place during lowering of pipe and lower the pipe by the help of chain pulley.

U P. V. C. Column Pipes for Submersible Pumps

SQUARE THREADS

Square Threads give excellent leak-proof gripping under high tensile load for longer time. They are easy to fit and have stress free joints. It is very easy to install and remove Submersible Pump - Column Pipes. Column Pipes can be held firmly with each other.

RUBBER ('O') RING

Specially designed 'O' ring gives leak proof joints and becomes an excellent locking system. 'O' ring acts as a motor jerk absorber which increases the life of the submersible pump.

ADAPTOR

Specially designed adaptor for X-illant Column pipes are non corrosive and powder coated.

PUMP GUARD

Technically designed Stainless Steel Pump Guard ensure that the pump does not fall, which in turn saves the tube-well. Only X-illant has additional safety.

Capacity to pull out weight of Submersible pump & X-illant Column pipes with chain pulley (in Kg.)

Size Of Pipe	1" 20 mm	1½" 32 mm	1½" 40 mm	2" 50 mm	2½" 65 mm	3" 80 mm	4" 100 mm
Medium	750	1230	1340	1530	1940	2740	4080
Standard	1320	1550	1720	2200	2700	4100	5750
Heavy	--	--	--	2860	4200	5750	9500

X-illantTM

U P.V.C. Column Pipes

Quality & Genuinity

COLUMN PIPES MANUFACTURED AS PER ASTM - D - 1785

- ✓ Specially Designed for Submersible Pumps
- ✓ Best alternative for G.I. and H.D.P.E. Pipes
- ✓ Long Life and High Strength
- ✓ Light Weight and Easy to Install
- ✓ Corrosion Resistant
- ✓ Ensures Energy Efficiency
- ✓ Provides strength with BI-AXIAL Technique
- ✓ Prevents Bacterial Growth and Non Toxic
- ✓ Non Conductive to Heat & Electric
